THE SOLUTION

In order to ensure our training meets with your exact requirements, our experienced course trainers will discuss, your exact requirements including the practical application of techniques. This will also take into consideration any technical / design constraints you may have.

Our courses can cater for the beginner up to the advanced user and are flexible in their delivery and training location with fees bespoke to each client's specific requirements.

As our training is designed specifically for each client and we can offer a choice of course designed to equip your teams with the necessary skills and techniques in order to optimise their operational efficiency.

Course Format

All of our training is conducted by experienced instructors each with many years of practical experience in digital marketing with a wide range of clients. We aim to focus our training on the exact requirements of our clients and the range of experience of the delegates. We are also happy to create bespoke training for those individuals who require 'fast track' knowledge of how to implement the essential techniques. We will also consider the wider aspects of specifics should they fit into the overall online marketing strategy.

WHO CAN BENEFIT?

Our wide tech experience across a range of industries ensures that we can provide training tailored to all areas of your business including:

- \ COPYWRITERS AND CONTENT AUTHORS
- \ WEB EDITORS AND DEVELOPMENT PERSONNEL
- \ WEBSITE MANAGERS AND WEBMASTERS
- \ ONLINE MARKETERS AND MARKETING MANAGERS
- \ DIRECTORS AND EXECUTIVE TEAMS

To complement the training day, we also supply up to date copies of any relevant in-house documentation. These documents are normally only available to retained clients.

Course exercises

In order to aid knowledge retention interactive exercises are developed to allow the delegates to work in teams to solve specific issues. The exercises are tailored to the exact working environment and Content Management Systems to ensure delegates are left with learning's that are directly applicable on return to work.

Course take-aways

As well as glossaries of terms delegates will also be provided with a 'how to' guide depicting how to deploy the knowledge learned so that it is directly applicable to their roles in the company.

e-learning

All information provided through the coursework will also be made available on the collaborative blog platform that is being deployed as part of iCrossing activity. This video based collateral will be accessible for all staff by way of a reminder or for new recruits.
